## Helping Your Supply Chain

Europe's Premier Fastener and Gasket Solutions Provider

LoneStar Fasteners Europe was formed through the alignment of 3 well established fastener businesses; PRD Fasteners, Eurofast Petrochemical Supplies and Triplefast International.

Sharing the functional resource and expertise of all three companies has created a large, modern manufacturing and distribution company able to offer a wide range of products, but one which still holds true to its traditional values of high-quality and outstanding service.

To continually meet the high standards of our combined global customer base, LoneStar Fasteners Europe is fully audited and approved to:-

- ISO 9001:2008
- ISO 14001:2004
- ISO 18001: 2007
- ISO 17025: 2005
- FPAL
- UVDB
- TUV

LoneStar Fasteners Europe operates from two impressive facilities located in the West Midlands, UK.

#### World Class Manufacturing Facility

Our state of the art 115,000 sq ft manufacturing facility enables us to manufacture a wide range of high performance fasteners and precision engineered components for the Power Generation, Subsea and Energy industries across Europe. We also have extensive experience and manufacturing capability to supply large EPC projects across the world.

#### Petrochemical Distribution Centre

Our dedicated petrochemical centre has been designed exclusively to serve our customers across the Oil, Gas, Petrochemical and Offshore industries who require quick turnaround fasteners on short deliveries and at competitive prices.

## Eurofast

Standard & non-standard petrochemical fasteners & gaskets

## PRD

High integrity precision fasteners & CNC components

## Triplefast

Specialist export & supply chain services

# Purpose Built Facility

LoneStar Fasteners Europe operates from two state of the art custom refurbished facilities, both fully equipped to allow us to continually meet and exceed the needs of our customers.

# World Class Manufacturing Capability

Our on-site manufacturing, testing and heat treatment capabilities combined with additional investment in new technology and machinery enables LSFE to produce high quality, cost effective components to customer requirements.

## £7.5 Million Stock

We have extensive racking and warehousing space to stock raw material and finished goods for the distribution and manufacture of standard and non-standard fasteners and precision components.

# Built for Service

Our dedicated teams work closely together providing outstanding support and service to our global customer base.
